EXPLANATORY NOTE

The purpose of this Form 10-K/A is to amend Part III, Items 11 and 12 of our Annual Report on Form 10-K for the fiscal year ended December 31, 2007, which was filed with the Securities and Exchange Commission on March 24, 2008 (the "2007 Form 10-K"). The reason for this 10-K/A is to meet our filing deadline for Part III hereof. In addition, as required by Rule 12b-15 under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), new certifications by our principal executive officer and principal financial officer are being filed as exhibits to this Form 10-K/A under Item 15 of Part IV hereof.

For purposes of this Form 10-K/A, and in accordance with Rule 12b-15 under the Exchange Act, Items 11 and 12 have been amended and restated in their entireties. No attempt has been made in this Form 10-K/A to modify or update other disclosures as presented in the original 2007 Form 10-K.

ITEM 11. Executive Compensation—Compensation Discussion and Analysis

This section discusses the principles underlying our executive compensation policies and decisions and the most important factors relevant to an analysis of these policies and decisions. It provides qualitative information regarding the manner and context in which compensation is awarded to and earned by our executive officers and places in perspective the data presented in the narrative and tables that follow. The cyclical nature of the homebuilding industry has had a profound effect on most homebuilding companies over the past two years. During 2007 it became evident that the industry downturn was not to be short lived. Accordingly, management focused on strategies intended to improve the Company's ability to weather the downturn and to adjust its strategy for growth and future operations. As part of that strategy, on the recommendation of the CEO, the Company reduced future non-cash compensation expenses through the acceleration of certain previously issued shares of restricted stock (Restricted Stock Grants) and replaced its original Restricted Stock Grant component of its compensation program with a long term stock option program based upon issuance of "out-of-the-money" stock options which we believe better align executive compensation with stockholder's interests. These are explained herein.

Overview

Compensation Philosophy. Our executive compensation program is designed to link the amount of overall compensation which can be earned by our named executive officers with achievement of the Company's overall long term business objectives. Because the homebuilding business requires that we invest in projects that take up to several years to fully develop and because the actual return on investment in any real estate development project cannot be readily determined prior to completion of a project, the actual return on investment in any particular development often takes several years to determine. Accordingly, our compensation philosophy does not link executive compensation to the results of any particular real estate development but rather links compensation to achievement of the long term business objectives of the Company. With this in mind our compensation program is intended to:

- Attract, retain, motivate and reward qualified executive officers that demonstrate an ability to focus on achieving the long term business objectives of the Company in a manner that links the personal gain of the executive officers to the creation and preservation of value for our stockholders;
- Provide long term retention incentives for executives to minimize risk of management turn over while linking a significant percentage of potential executive compensation to the restoration of the value of our equity.

We believe that fostering a long term equity interest in our Company among executive officers is the best way to create and maintain a Company-first culture that will positively impact the long term results of the Company. It is our belief that by linking the bulk of potential executive compensation directly to potential restoration of value of the Company's equity we have better aligned executive management with stockholder's interests.

Our executive compensation program currently has three primary components:

- base salaries (cash compensation) that we believe to be in the lower end of compensation ranges for comparable positions at other publicly traded companies in our industry and peer group;

- annual bonus potential (cash bonus) linked to the achievement of annual and long term Company objectives that we believe to be in the lower end of comparable bonus compensation ranges for comparable positions at other publicly traded companies in our industry and peer group and which resulted in no bonus compensation being paid to any executive in connection with 2007 results; and
- long-term incentive compensation that has been delivered principally through grants of shares of restricted stock and stock option awards that vest over four year periods.

Role of Compensation Committee and CEO. The Compensation Committee of our Board of Directors has primary responsibility for reviewing and approving the CEO's specific recommendations for annual cash bonuses and equity awards, or other retention incentives, to be paid to executive officers and approving the overall budget for annual bonuses (cash and equity) to be paid to all Company personnel. The Compensation Committee of our Board of Directors also has primary responsibility for reviewing and approving any material changes to the employment contracts and the compensation packages of our executive officers. Further, each year our Compensation Committee evaluates the performance of the CEO and determines the CEO's compensation in light of the goals and objectives of the compensation program and the performance results of the Company. The CEO and Compensation Committee together annually assess the performance of the other named executive officers. The executive officers do not play a role in their own compensation determination, other than discussing individual performance objectives with the CEO. Upon reviewing and evaluating the performance of both the CEO and the other named executive officers and the CEO's proposals for compensation packages for the other named executive officers, the Committee decides the compensation packages for the executive officers and makes a recommendation to the full Board of Directors for consideration and approval. The Committee makes regular reports to the full Board of Directors on the Committee's activities, and the Committee prepares an annual report on executive compensation for inclusion in our proxy statement.

Actions Taken on Recommendation of CEO. As detailed in the annual report of the compensation committee, the CEO recommended that no annual cash bonuses be paid to executive officers in connection with 2007 results. Additionally, during 2007 the CEO recommended the following additional actions be taken to enhance the alignment of management with stockholder's interests and reduce future compensation expenses related to previously issued shares of restricted stock:

- All outstanding vested and unvested stock options (200,295 options) were cancelled and terminated, with the residual GAAP expense (approximately \$176,155) being recognized in 4Q 2007;
- All outstanding Restricted Stock Grants (843,756) were accelerated and vested with the residual GAAP expense (approximately \$4,119,856) being recognized in 4Q 2007 while approximately 553,364 of the shares being accelerated were subjected to long term lock up agreements restricting the sale of such shares for a period of time substantially similar to the original vesting schedule associated with such Restricted Stock Grants;
- In connection with the acceleration of the Restricted Stock Grants the Company incurred certain additional payroll expenses to reimburse the tax liability incurred by certain recipients of restricted stock grants upon acceleration (approximately \$250,000) and in connection with previously vested restricted stock grants (approximately \$184,953);
- The issuance of approximately 650,000 new stock options to the key managers of the Company (not including the CEO) with a strike price of \$1.00;

The recommendations of the CEO were approved by the Compensation Committee and the full Board of Directors.

Role of Compensation Consultant. The Compensation Committee has the sole authority to select, retain and/or replace any compensation or other outside consultant for assistance in the evaluation of director, CEO or other executive officers' compensation, including the sole authority to approve the consultant's fees and other retention terms. In 2004, the Company selected PricewaterhouseCoopers LLP, or PwC, as its compensation consultant in connection with its initial public offering. This relationship was renewed in 2006 when the Committee engaged PwC as its compensation consultant with respect to 2006 executive compensation. The Committee considers

PwC to be independent and selected PwC because of its experience in compensation consulting and its knowledge of compensation practices in the homebuilding industry and among newly public companies. Services provided by PwC have included evaluating our existing executive officer and director compensation based on market comparables, analyzing compensation design alternatives and advising us regarding various proxy statement disclosure rules. The Committee did not engage a compensation consultant in connection with its review and assessment of the Company's 2007 executive compensation.

Objectives of the Comstock Executive Compensation Programs

During 2007 we focused on strengthening the link between executive compensation and stockholder interests while enhancing our ability to manage difficult market conditions. By accelerating the vesting of previously issued restricted stock grants we were able to reduce future compensation costs associated with historical grants at share prices in excess of current market value by issuing options that were issued out-of-the-money we believe we have enhanced alignment of management with stockholder's interests. We believe that fostering a long term equity interest in our Company among executive officers is the best way to create and maintain a Company-first culture that will positively impact the long term results of the Company. It is our belief that by linking the bulk of potential executive compensation directly to restoration of value of the Company's equity we have better aligned executive management with stockholders' interests.

While base salaries for the executive officers should reflect the marketplace for similar positions, we prefer to focus this portion of executive compensation on the lower end of the scale while enhancing potential individual reward through the equity component of the compensation program thereby encouraging management to focus on increasing stockholder value in the long term. A significant portion of executive's total compensation potential is thereby connected to the financial performance of the Company and the performance of the Company's equity.

The Compensation Committee considers competitive benchmarking data in the establishment of base salaries, incentive targets, equity awards and total compensation levels.

Elements of our Executive Compensation Program

Base Salary. The base salary we pay to our executive officers was negotiated as part of their employment agreements for the term of the employment agreements. Base salaries for our executive officers depend on the scope of their responsibilities, qualifications, experience, prior salary and competitive salary information, performance, and the period over which they have performed those responsibilities.

Benefits and Perquisites. Our executive officers are able to participate in the employee benefits that are available to all employees. In addition, we provide benefits and perquisites to our executive officers based on the terms of their employment agreements. None of our named executive officers received perquisites in 2007 that exceeded \$10,000 in value.

Incentive Compensation. Our incentive compensation is composed of an annual cash bonus based on the achievement of annual individual performance goals and Company financial results, and equity awards consisting of stock option awards.

Annual Cash Bonus Plan. We provide a cash bonus opportunity to all of our employees including our executive officers. The performance goals for our executive officers are based in part on individual performance goals, our Company's performance, and the achievement of a pre-established annual pre-tax net income goal. The other portion of the bonus is based on the specific performance goals of the individual executive. Up to seventy-five percent (75%) of the total cash bonus potential of the executive is based on the executive officer accomplishing his/her annual individual performance goals, otherwise known as the Performance Bonus. At least twenty-five percent (25%) is based on the Company meeting its annual pre-tax net income goal, otherwise known as the Net Income Bonus.

Our Compensation Committee chose pre-tax net income as the indicator of corporate performance because it believed that we should reward our executive officers based on the profitability of the Company. Our Compensation Committee considered pre-tax net income to be the best indicator of financial success and stockholder value creation. The personal performance objectives are determined by the executive officer to

whom the potential bonus recipient reports (subject to the approval of the CEO) or, in the case of our chief executive officer, by our Compensation Committee.

In 2006 the Company initiated an additional bonus program for certain executives and executive officers whose positions are such that they can directly impact the bottom line results of the Company. This is known as the Executive Management Income Percentage Bonus Program (“Income Percentage Bonus”). Eligible executives may earn a cash bonus “override” over and above the executive’s Net Income Bonus, based on the earnings generated by the division(s) or operating unit(s) of the Company that the executive has responsibility for managing. The Income Percentage Bonus is intended to reward executives for their leadership and management of profit center operations, and of the Company, and is designed to create incentives for executives to maximize the financial performance of the Company’s divisional operations, regional operations and the Company as a whole. The potential amount of the Income Percentage Bonus is limited only by the profitability of the Company. Upon recommendation of the CEO this program was suspended in 2007 and no such bonus was paid to any executive.

Retention Incentive. On the recommendation of the CEO, the Compensation Committee recommended to the full Board of Directors, and the Board of Directors approved, that the Company establish a cash retention incentive in an effort to secure key executives while the Company navigates difficult market and financing conditions. The incentive is payable in three installments (in April and October of 2008 and April of 2009). If the subject executives remain employed by the Company in their respective current capacities the subject executives will qualify for the retention incentive payments. The total amount of Retention Incentives established by the Company for key executives was \$275,000 with Mr. Labovitz eligible to receive up to \$150,000 and Mr. Thompson eligible to receive up to \$125,000.

Long-Term Incentive Compensation. In 2007, our long-term incentive compensation consisted of grants of restricted stock and deferred stock awards. By providing executives with an ownership stake in the Company, grants of restricted stock and deferred stock awards are intended to align executive interests with stockholder interests and to motivate executives to focus on maximizing the long-term performance of the Company. Use of restricted stock as a part of the annual grant process is intended to encourage direct share ownership by executives and to provide an additional retention incentive for members of the executive team.

Grants of restricted and deferred stock during 2007 were awarded under our 2004 Long-Term Incentive Compensation Plan, and were issued in connection with 2006 bonuses only. Details on awards granted during 2006 to our CEO and other named executive officers may be found in the table entitled “Grants of Plan-Based Awards.” Details on all shares of restricted stock that vested in 2007 and option awards exercised in 2007 by our CEO and other named executive officers may be found in the table entitled “Options Exercised and Stock Vested.” Details on all outstanding restricted stock grants and stock option awards of our CEO and other named executive officers as of the end of 2007 may be found in the table entitled “Outstanding Equity Awards at Fiscal Year End.”

During 2007, restricted stock grants and option grants were made to named executive officers both in connection with 2006 performance and as additional long term retention incentives. These awards are detailed in the accompanying “Grants of Plan Based Awards” table. In June 2006, the Board of Directors, upon the recommendation of the Compensation Committee, approved the issuance of 250,000 shares of restricted stock to Mr. Labovitz which vest over a seven year period. As a result of then-existing limitations in the Company’s equity incentive plan which established a 150,000 share maximum grant of restricted stock to any single individual in a 12-month period, 165,195 shares of the 250,000 share grant to Mr. Labovitz were issued contingent upon stockholder approval of an amendment to our equity incentive plan that was considered by our stockholders in connection with our 2007 annual meeting that would increase the annual per-person award limit. Our stockholders approved the amendment, and the contingent status relative to the 165,195 shares of the 250,000 share grant was removed in 2007.

All equity awards granted to our executive officers in 2007 were approved by the Compensation Committee and the full Board of Directors. The restricted stock issued in 2007 vests over varying terms. This vesting is contingent on the continued employment of the executive officer. The majority of restricted stock grants issued by the Company have identical four (4) year vesting schedules. Each deferred stock grant issued in 2007 in

connection with 2006 performance had a single fixed vesting date prior to December 31, 2007, was fully expensed in 2006 through an accrual of compensation liability and was not contingent on continued employment.

Equity Award Modifications. As outlined above, in 2007, the Compensation Committee considered a proposal (the “Equity Award Modifications”) from our CEO that involved (i) modifications to the terms of equity awards previously made to our executive officers under the Company’s equity incentive plan, (ii) cancellation of certain previously made equity awards and (iii) reimbursement of tax liabilities incurred by certain of our executive officers as a direct result of the modifications to the terms of the equity awards, and (iv) the issuance of out-of-the-money stock options. This proposal was recommended to the full Board of Directors for approval. The Board of Directors approved the proposal. Details regarding the Equity Award Modifications are set forth in the “Summary Compensation Table,” “Grants of Plan Based Awards During 2007” table and the “Stock Vested in 2006” table.

Executive Severance Programs. Consistent with peer-group practice (as determined in PwC’s 2006 research), we have entered into employment agreements, which we believe to be consistent with industry practices, with all but two of our named executive officers. The purpose of these employment agreements is to enhance our executive retention efforts. PwC’s 2006 research indicated that the severance-related benefits provided to our executive officers in these agreements are at the lower end of the peer-group range of practices.

Change of Control Provisions. Pursuant to the terms of the option grant notices, all unvested option awards for Messrs. Clemente, Benson, Labovitz and Thompson would become immediately exercisable upon a change-in-control of Comstock unless the unvested options are assumed by the acquirer.

Impact of Regulatory Requirements

The Compensation Committee considers regulatory requirements and their impact when making executive compensation decisions concerning the CEO and other executive officers. Regulatory requirements that influence the Committee’s decisions include:

- Internal Revenue Code Section 162(m) of the Internal Revenue Code disallows a tax deduction to public companies for compensation not deemed to be performance-based over \$1,000,000 paid for any fiscal year to the CEO and other executive officers other than the CFO. We intend to attempt to qualify executive compensation for deductibility under applicable tax laws to the fullest extent practicable. We believe that our bonus programs qualify for the performance-based exception. We also believe that we will not lose any compensation-related tax deductions for compensation decisions made in 2006 but may experience gains or losses on the tax we have recorded based on the variance between the price of our stock on the date of issuance of a restricted stock award and the actual price of our stock on the date of vesting of the stock award. The Compensation Committee will not, however, necessarily seek to limit executive compensation to the amount deductible under Section 162(m).
- We believe employees will not be subject to any tax penalties under Internal Revenue Code Section 409A as a result of participating in any of our compensation programs or agreements.
- We adopted SFAS No. 123R for the 2006 fiscal year. In determining restricted stock and stock option awards for 2006, the Committee generally considered the potential expense of those programs under SFAS No. 123R and the impact on earnings per share. The Committee concluded that the award levels were in the best interests of stockholders given competitive compensation practices in the homebuilding industry and among our peer companies, the awards’ potential expense, the Company’s performance, and the impact of the awards on employee motivation and retention.

Conclusions

We believe that fostering a long term equity interest in our Company among executive officers is the best way to create and maintain a Company-first culture that will positively impact the long term results of the Company. It is our belief that by linking the bulk of potential executive compensation directly to restoration of value of the Company’s equity we have better aligned executive management with stockholders’ interests. We will continue to review our programs on a regular basis and expect to update them from time to time, based on changes in competitive practices, regulatory requirements and corporate needs.

Compensation Committee Report

The Compensation Committee has reviewed and discussed the Compensation Discussion and Analysis required by Item 402(b) of Regulation S-K with management. Based on these reviews and discussions, the Compensation Committee recommended to the Board of Directors that the Compensation Discussion and Analysis be included in the Company's Annual Report on Form 10-K.

Respectfully submitted by the Compensation Committee,

Socrates Verses, Chair
Norman D. Chirite
David M. Guernsey

EMPLOYMENT ARRANGEMENTS WITH EXECUTIVE OFFICERS

Christopher Clemente and Gregory Benson each serve pursuant to the terms of executive employment agreements dated as of December 17, 2004. Mr. Clemente's agreement has an initial term of five years and Mr. Benson's has an initial term of four years. Each agreement will automatically be extended for successive one-year periods beginning on the one year anniversary of the date of the agreement unless either party notifies the other that the term will not be extended. Under the agreements, Mr. Clemente's and Mr. Benson's minimum annual salary is \$550,000, subject to potential increase by our Board of Directors from time to time. Mr. Clemente and Mr. Benson are eligible for a cash bonus of not less than 200% of his then-current salary, based upon the satisfaction of financial performance criteria. Mr. Clemente and Mr. Benson are also eligible for awards under our equity incentive plan and any similar executive compensation plans we may adopt from time to time. In 2006, our Board of Directors increased the minimum annual salary payable to Mr. Clemente to \$700,000.

Mr. Clemente has agreed not to compete with us during the term of his employment and for two years after the termination of the agreement. Mr. Benson has agreed not to compete with us during the term of his employment and for 18 months after the termination of the agreement. Each of Mr. Clemente's and Mr. Benson's employment agreements and non-competition agreements, allow them to engage in the following permitted business activities: (i) development of commercial or for-rent residential (such as apartment buildings) real estate investment properties; (ii) development of speculative land holdings as residential lots intended for construction of for-sale residential dwellings, provided, however, that any such development by any entity in which Mr. Clemente or Mr. Benson, as applicable, has a controlling interest or decision-making power, must first be offered to the Company at a fair market value price; and (iii) secured real estate lending to unrelated third parties. In addition, each has agreed not to (i) engage in any for-sale residential construction activities in any of our then existing markets or in any market which we then plan to enter within six-months; or (ii) solicit our employees or certain other third parties for 24 months, in the case of Mr. Clemente and 18 months in the case of Mr. Benson.

Bruce Labovitz serves pursuant to the terms of an executive employment agreement dated December 17, 2004. Jubal Thompson serves pursuant to the terms of an executive employment agreement dated August 29, 2006. Each agreement has an initial term of three years and will automatically renew for successive one-year periods beginning on the one year anniversary of the date of the agreement unless either party notifies the other that the term will not be extended. Under his agreement, Mr. Labovitz's minimum annual salary is \$300,000, subject to potential increase by our Board of Directors from time to time. In 2006 our Board of Directors increased the minimum annual salary payable to Mr. Labovitz to \$400,000. Under his agreement, Mr. Thompson's minimum annual salary is \$200,000, subject to potential increase by our Board of Directors from time to time.

POTENTIAL PAYMENTS ON TERMINATION OR CHANGE IN CONTROL

Under the employment agreements with Messrs. Clemente, Benson, Labovitz and Thompson, if such executive's employment is terminated without cause or if such executive were to terminate his employment for good reason, each as defined in the agreement, such executive is entitled to continue to receive his then-current salary for 24, 18, 12 and 12 months, respectively. Messrs. Clemente, Benson, Labovitz and Thompson will also be entitled to receive a cash payment in an amount equal to two times, one and one half times, one times and one times, respectively, 100% of the bonus he would have been entitled to had he remained our employee until the end of our fiscal year. This cash payment will be due and payable on the earlier of (i) 90 days after our last payment of such executive's then-current salary or (ii) the end of the fiscal year in which our termination of such executive without cause or such executive's termination for good reason occurs. In the event of our termination of such executive without cause or such executive's termination for good reason within the six calendar month period prior to the effective date of a Change in Control (as defined in the agreement) or within the 12 calendar month period following the effective date of a Change in Control, the cash payment will be due and payable in full within 30 days of the effective date of the Change in Control. Upon termination without cause, each executive is further entitled to continue to participate in employee benefit plans, programs and arrangements for a period of 12 months following termination.

Furthermore, subject to certain termination events, we have agreed to reimburse Mr. Labovitz for premium payments he makes on his life insurance policy with a national insurer. These reimbursements are in addition to the standard insurance benefits provided by us to our employees. The reimbursement of life insurance expenses covers the period January 1, 2005 through December 31, 2008. The annual premium reimbursement payable by us shall not exceed \$6,000.

The following table describes the potential payments and benefits to which our executive officers would be entitled upon the happening of the following events: (i) a change of control of Comstock (with no termination of employment) and (ii) a change in the executive's responsibilities by us. Calculations for this table are based on

the following assumptions: (i) the triggering event took place on December 31, 2007 and (ii) bonus amounts are based on the 2007 Net Income Bonus and as a result could be understated for future years.

DIRECTORS' COMPENSATION

We pay each non-employee director an annual retainer fee of \$36,000, plus \$2,000 for each regular meeting of the Board of Directors attended. We pay our non-employee directors \$5,000 to serve on the Audit Committee, \$3,000 to serve on the Compensation Committee and \$2,000 for each committee meeting attended. The chairman of the Compensation Committee is paid \$6,000, the chairman of the Audit Committee is paid \$15,000 and the Audit Committee designated financial expert is paid \$32,500. All payments to our non-employee directors are paid 50% in cash and 50% in shares of restricted stock based on the stock price at the date of commencement of their term or the date of the annual meeting in the case of members not up for re-election in a given year. Directors are also eligible to participate in our equity incentive plan. We also reimburse our directors for travel and related expenses incurred in connection with attendance at board and committee meetings. Employees who also serve as directors receive no additional compensation for their services as a director. In 2007, the Board of Directors elected to receive 100% of their compensation in stock and restricted stock grants.

The following table details the compensation earned by our non-employee directors in 2007:

Name	Fees Earned(1), (3) or Paid in Cash in 2007 (\$)	Stock Awards(2) (\$)	Total (\$)
Norman Chirite	29,273	19,889	49,162

SECURITY OWNERSHIP OF PRINCIPAL STOCKHOLDERS, DIRECTORS AND OFFICERS

The following table sets forth certain information regarding the beneficial ownership of our common stock on April 16, 2008, by (1) each director and named executive officer of our Company, (2) all directors and executive officers of our Company as a group, and (3) each person known by us to own more than 5% of our common stock.

Beneficial ownership is determined in accordance with the rules of the SEC. In computing the number of shares beneficially owned by a person and the percentage ownership of that person, shares of Class A common stock subject to options held by that person that are currently exercisable or will become exercisable within 60 days after April 16, 2008, are deemed outstanding, while the shares are not deemed outstanding for purposes of computing percentage ownership of any other person. Unless otherwise indicated in the footnotes below, the persons and entities named in the table have sole voting or investment power with respect to all shares beneficially owned, subject to community property laws where applicable.

* Less than 1% of the outstanding shares of common stock

- (1) Does not include shares of Class A common stock issuable upon conversion of Class B common stock. Percentage total voting power represents voting power with respect to all shares of our Class A and Class B common stock, as a single class. Each holder of Class B common stock shall be entitled to fifteen votes per share of Class B common stock and each holder of Class A common stock shall be entitled to one vote per share of Class A common stock on all matters submitted to our stockholders for a vote. The Class A common stock and the Class B common stock vote together as a single class on all matters submitted to a vote of our stockholders, except as may otherwise be provided in our certificate of incorporation or as required by law. The Class B common stock is convertible at any time by the holder into shares of Class A common stock on a share-for-share basis.
- (2) 96,243 shares of Class A common stock are held by Mr. Clemente's wife, Tracy Schar. 69,333 shares of Class A common stock and 1,366,750 shares of Class B common stock are held by FR54, LLC, an entity that is owned by Mr. Clemente and his wife. 5,000 shares are held in various trusts for the benefit Mr. Clemente's children. Mr. Clemente is the custodian for each trust.

- (3) 350,083 shares of Class A common stock and 1,366,750 shares of Class B common stock are held by Clareth LLC, an entity that is wholly owned by Mr. Benson.
- (4) 2,472 shares are held in various trusts for the benefit of Mr. Labovitz's children. Mr. Labovitz is the custodian for each trust.
- (5) 9,676 shares are held by RLR Investment Management, LLC, an entity that is owned by Mr. Pincus.
- (6) Includes 2,000 shares of Class A common stock, with respect to which Mr. Verses disclaims beneficial ownership. The shares are held in trust for the benefit of Mr. Verses' children. Mr. Verses' wife is the custodian of these trusts
- (7) This information is based on Schedule 13G, as amended, filed with the Securities and Exchange Commission by the stockholder.
